

MOBILE APP

AMG0116 - Accessoires

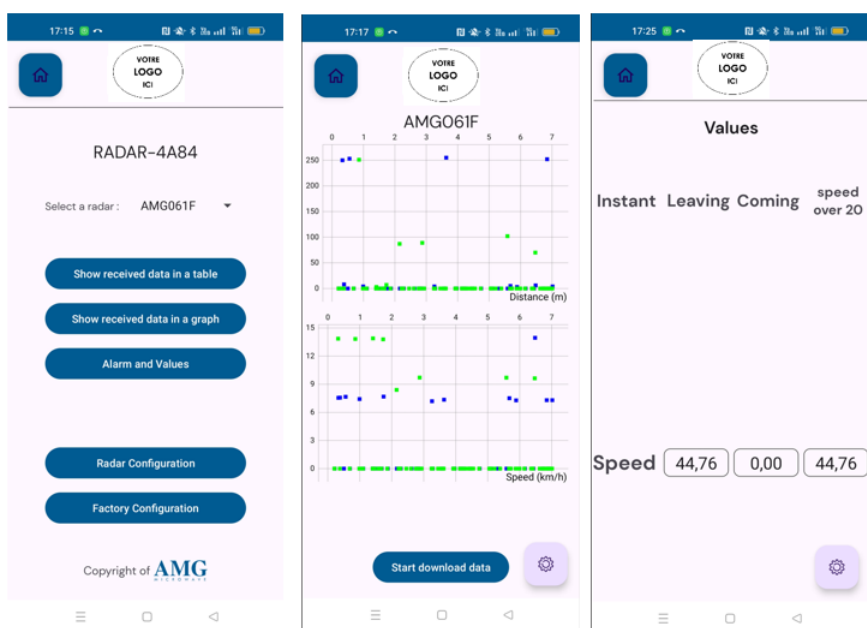

- Factory Control
- Factory Setup
- Installation and Verification
- Measurement and Recording
- Customer Demonstration
- An application for Android mobile devices.

DESCRIPTION

Discover an innovative Android application that allows you to easily configure, view, and record measurements from your AMG sensors. For sensors without Bluetooth connectivity, a dongle is also available. With this solution, you can set up, install, and use the sensors directly from your mobile device.

With your default configuration already predefined, the app provides an intuitive and user-friendly interface for displaying measurements, making it perfect for quick and efficient operation.

USE

APPLICATIONS

- Factory setup
- Facility
- Demonstration
- Measurement capture
- Prevention campaign
- Multi-hour recording

ADDITIONAL INFORMATION
